- ActiveSmart[™] helps keep food fresher for longer
- · Bottom freezer drawer
- · Brushed metal handles

DIMENSIONS

FEATURES & BENEFITS

ACTIVESMART™ FOODCARE

ActiveSmart™ Foodcare learns how you live. It's the technology that understands how you use your fridge and adjusts the temperature, airflow and humidity inside to help keep food fresher for longer.

Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

WATER ON TAP

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.

Design Quality

Our refrigerators are designed and built using quality materials. We use real stainless steel on our refrigerators and solid glass for shelving.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Ice Maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

Easy Cleaning

Spill-safe secure glass shelves easily capture any drips or leaks and prevent them from falling on items below.

SPECIFICATIONS

Total gross capacity 20.1 cu ft

Volume freezer 5.1 cu ft
Volume refrigerator 14.6 cu ft

Consumption

Capacity

Energy rating Energy star
Energy usage 532kWh/year

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

correctly describes the model currently available. $\ensuremath{\texttt{@}}$ Fisher & Paykel

Appliances Ltd 2020

QUICK REFERENCE GUIDE > RF201ADUSX5 N Date: 17.12.2024 > 3

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
