

# Combination Microwave Oven, 60cm, 19 Function

Series 7 | Minimal

Grey Glass

The speed of microwave cooking with the versatility of convection oven technology in a compact companion model, for perfect pairing.

- Compact size, and generous 49L capacity with four shelf positions
- Intuitive, 2.4" display with illuminated dial
- Wi-Fi enabled and works with the SmartHQ™ app for remote control and notifications

## DIMENSIONS

Height	458 mm
Width	596 mm
Depth	565 mm

## FEATURES & BENEFITS

### Cooking Flexibility

Choose from 19 cooking functions including Fan Forced and Grill. With both microwave and convection oven technology in the same oven, you have more flexibility for your culinary creations.

### Sized To Suit

A compact 60cm width means this microwave oven can be placed almost anywhere - all companion products can be installed at a convenient height to suit your kitchen design and preference.

### Complementary Design

Finished in a subtle grey glass, our Minimal style companion products help you achieve a coherent kitchen aesthetic that suits your design style.

### Easy Cleaning

This Combination Microwave Oven has formed side racks and a stainless steel interior for easy cleaning.

### Safe And Sound

The CoolTouch door is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

Service & Warranty

User Guide Combination Microwave Oven

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
