

# Gas on Glass Cooktop, 45cm

Series 9 | Minimal

Black Glass | Town Gas

Powerful single wok burner. Pair with any other appliance in our Minimal range.

- Perfect for a compact cooking area with one dual flame wok burner
- A timeless, minimal look to fit any kitchen style, with black ceramic glass cooking zones and a black trim
- A flame-failure safety device; if the flame goes out, the gas turns off
- Removable cast iron trivets and ceramic glass that can be wiped down for easy cleaning

## DIMENSIONS

Height	124 mm
Width	450 mm
Depth	530 mm

## FEATURES & BENEFITS

### Complementary Design

The subtle black glass, anodised trim, and black dials blend elegance with durability and are designed to match the Minimal style Series 9 ovens. With premium styling and detailing, these hobs seamlessly blend with other appliances for a cohesive, considered kitchen design.

### Quality Materials

With cast iron trivets, anodized metal dials and tough ceramic glass that can withstand high temperatures, we use only the highest quality materials for optimal performance.

### Safe & Sound

The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

### Easy Cleaning

Cleaning and care of these cooktops is easy with sealed burners and a single sheet cooking surface. After each use, simply remove the trivets and wipe down the glass.

## SPECIFICATIONS

### Accessories (included)

Small pan support	•
Wok stand	true

## Accessories (sold separately)

Joiner kit	Part 534731 (required to join two cooktops)

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
