# Series 5, Contemporary Dishwasher

Series 5 | Contemporary

#### Black Stainless Steel

Designed to match the Contemporary family of appliances, this dishwasher delivers multiple wash options and Auto Door Open Dry.

- Seven wash programs from Heavy to Light, including Auto, 60min and Eco
- Dry+, Sanitise and Half Load modifiers provide extra wash options
- Flexible freestanding installation anywhere in your kitchen
- Impressive 4 star energy rating and 5 star (WELS) water ratings

### DIMENSIONS

ht	850 - 895 mm
h	597 mm
h	600 mm
'n	600

### **FEATURES & BENEFITS**

#### **Considered Design**

Designed to match our Contemporary style family of products, this freestanding dishwasher has a sleek stainless steel finish with a front-of-door control panel for intuitive usability.

#### Effortless Drying

For beautifully dry dishes every time, this dishwasher features the Auto Door Open Dry function. This function automatically releases excess steam at the end of the cycle, ensuring dishes are immediately ready for use or storage.

#### A Reliable Clean

This dishwasher offers seven wash programs including Auto, which automatically senses the optimal wash settings for your dishes. The three-stage filtration system delivers a superior clean, while the rinse aid indicator reminds you to top up for beautifully clean dishes.

#### **Customise Your Wash**

The Half Load modifier is perfect for washing a partial load, for faster turnaround of dishes. Sanitise provides extra protection, killing 99.9% of bacteria\* in the final rinse, while the Dry+ modifier is great for plastic dishes. \*Certified to NSF/ANSI Standard 184

#### **Efficient Performance**

With a 4 star energy rating and 5 star water rating, this dishwasher delivers a powerful wash. Use the Eco wash program for optimal water and energy consumption, or choose when the cycle begins with Delay Start.

#### Flexible Loading

Designed to fit 15 place settings with ease, adjustable racks help you to load and care for various items – including a height-adjustable upper basket, and foldable cup holders and tines.

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

The product dimensions and specifications in this page apply to the specific

dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. © Fisher & Paykel

product and model. Under our policy of continuous improvement, these

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
