

30" Series 11 Integrated Column Refrigerator

Series 11 | Integrated

Panel Ready | Right Hinge

<p>Install it separately or pair with another Column for seamless integration - this model is right hinge with stainless steel interior.</p>

- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature
- Two separate Variable Temperature Zones: each with Fridge, Pantry or Chill
- Customize with your own kitchen cabinetry or purchase our stainless steel door panel accessory

DIMENSIONS

Height	84 "
Width	29 3/4 "
Depth	24 "

FEATURES & BENEFITS

Variable Temperature Zones

Food is stored in two separate zones. You have the choice of three food modes: Fridge 32°F to 44°F, Pantry 52°F to 56°F and Chill 29°F to 32°F.

Mix & Match

Integrated Column Refrigeration gives you the freedom to mix and match. Different sized Column Fridges and Freezers can be installed separately or paired. Finish them with our stainless steel door panels or customize to match your own kitchen cabinetry.

Clever Energy

Our Energy Star certified ActiveSmart™ Foodcare Fridges & Freezers adapt to daily use by cooling and defrosting only when needed. This means your refrigerator uses the energy it needs without compromising on food care.

Appealing Illumination

Bright LEDs light up the ceiling, shelves, bins and tray in both refrigerator and freezer, making it easy to find your food and creating a welcoming glow in your kitchen for those midnight snacks.

Design Quality

The premium design and quality finish includes a steel interior lining as well as soft-close, full extension metal shelf runners for easy access and robust glass shelving.

Easy Install

Integrated Column Refrigerators and Freezers have been developed to make their installation easy. The joiner kit is included when pairing refrigerator and freezers. All models come with front adjustable levelling feet and they've been designed to easily slide into place as separate units.

Perfect Fit

These models fit flush and have only 1/8" gaps around them with no visible hinges or grilles. Our Integrated Column models can be seamlessly hidden behind your cabinetry or you can purchase our stainless steel door panel.

SPECIFICATIONS

Accessories (sold separately)

Door panel stainless steel Left hinge 84"	RD3084L4D	Energy usage	247kWh/year	Rated current	10 A

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
