FEATURES & BENEFITS

Generous Capacity

With a generous total capacity of 85L, you can create several dishes at once using multiple shelves.

Even Cooking

AeroTech™ technology circulates heat evenly throughout the cavity, helping to ensure perfect results when cooking on multiple shelves.

Easy Cleaning

The oven door and inner door glass can be removed for quick and easy cleaning.

Safe And Sound

The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

Seamless Fit

Designed to fit seamlessly in your kitchen, this built-in oven fits flush with cabinetry to minimise gaps and add to a cohesive aesthetic.

Complementary Design

These built-in ovens are finished in black glass with stainless steel dials that blend an elegant, minimalist aesthetic with design for durability.

Multi-Function Flexibility

This built-in oven has seven functions including Bake, Fan Bake and Pizza Bake, allowing you to use a variety of cooking styles.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
