Width 29 13/16 "
Depth 20 13/16 "

FEATURES & BENEFITS

Sized To Suit

This compact 30" Convection Speed Oven can be placed almost anywhere. Companion products share the same dimensions and can be installed in multiple configurations to suit your kitchen design and preference.

Cooking Flexibility

Choose from nine cooking modes including True Convection and Broil. With both microwave and convection oven technology in the same oven, you have more flexibility for your culinary creations.

Easy To Use

The intuitive touch display shows you all the information you need, allowing you to easily program in your desired cooking mode and duration.

Beauty Of Choice

With bold styling that would be at home in a commercial kitchen, Professional-style Companion products help you to create a coherent, distinctive aesthetic in your kitchen.

Easy Cleaning

This Convection Speed Oven has formed side racks and a stainless steel interior that are easy to clean.

Safe And Sound

The CoolTouch door is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

QUICK REFERENCE GUIDE > OM30NPX1

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
