36" Series 7 Classic 5 Burner

Gas Range

Series 7 | Classic

Red

Make your range a focal point. With a large capacity oven and five burners, this is the perfect way to cook for a crowd.

- Five burner gas cooktop, including one dual ring and two triple ring wok burners
- Gas oven with 4.9 cu ft total capacity and three functions including Bake and Broil

DIMENSIONS

Height 35 3/4 - 37 1/4 " Width 35 7/8 " Depth 25 1/4 "

FEATURES & BENEFITS

Design Quality

This range has been carefully crafted in every detail from performance to durability using quality materials including the balanced soft-close door and rounded rangetop rail.

Large Capacity Oven

The generous 4.9 cu.ft total capacity oven gives you plenty of space to cook multiple dishes at once, with enough room to fit a 32 lb turkey.

Performance Power

Precise cooktop controls let you sear or stir fry over instant, powerful heat. Use the high burner power or simmer a delicate sauce using the gentlest of heats.

Easy cleaning

With its durable surface, your cooktop simply needs a quick wipe after cooking to keep it looking good as new for years to come.

SPECIFICATIONS

Accessories (included)

2-pc grill system (Broil pan and Grill rack)	•
Broil pan	•
Chromed shelf runners	1 set
Full extension telescopic shelves	2 sets (part 578744)
Grill rack	true
Small pot support	1 (part 533981 cast)

Accessories (sold separately)

ck strip, black (optional)	KICKOR36B1
ck strip, red (optional)	KICKOR36R1
ck strip, stainless steel (optional)	KICKOR36X1
ck strip, white (optional)	KICKOR36W1
ok grate included	Yes

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
