

Wall Range Hood, 30", Pyramid Chimney

Series 7 | Classic

White

Pairing well with the white Classic Range, this wall chimney range hood extracts steam, grease and cooking odors effectively.

- With three fan speeds, select the perfect extraction rate for your cooking
- Dishwasher-safe filters that are easy to remove and clean
- Powerful 600 CFM maximum airflow with edge-to-edge extraction
- Energy-efficient LED lighting to illuminate your cooktop

DIMENSIONS

Height	38 3/8 - 21 1/16 "
Width	29 3/4 "
Depth	19 11/16 "

FEATURES & BENEFITS

Complementary Design

This wall chimney range hood is designed to match the classic Range in both colour and style, including stylish chrome touch buttons.

Cleaner Air

Odors can linger in the kitchen well after cooking is finished. With three fan speeds and a maximum airflow of 600CFM, this range hood removes cooking odors effectively, as well as grease and steam while cooking.

Intuitive Controls

Classic-style chrome touch buttons are simple to use, giving you full control of your extraction.

Simple To Clean

Three stainless steel filters are easy to remove, and can be cleaned in the dishwasher or washed by hand in hot soapy water.

Design Quality

With durable powdercoated coloring and robust product design, this range hood is both visually appealing and durable.

Considered Efficiency

The extraction rate ensures interior air is not excessively removed to the outside, while LED lighting on the range hood has been chosen for energy efficiency.

Easy Installation

This wall chimney rangehood is the perfect partner to your Fisher & Paykel Cooktop or Range. It can be either externally ducted or internally recirculated, for simple installation.

SPECIFICATIONS

Accessories (included)

Aluminium filter	792558
------------------	--------

Accessories (sold separately)

Chimney extension	793224
Light bulb	792579
Recirculation carbon filter	793162
Recirculation diverter	793163

Fan ratings

Maximum air movement	600 CFM

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
