

538L Series 7 Quad Door Refrigerator Freezer, Ice & Water

Series 7 | Contemporary

Black Stainless Steel | French hinge

With brilliant LED lighting and three independent compartments including a Variable Temperature Zone, for truly flexible storage.

- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Door water dispenser and internal ice maker with boost function
- Variable Temperature Zone lets you change a compartment to Fridge, Chill, Soft Freeze or Freezer for optimal storage

DIMENSIONS

Height	1790 mm
Width	905 mm
Depth	688 mm

FEATURES & BENEFITS

VARIABLE TEMPERATURE ZONE

At the touch of a button, easily convert the lower right compartment to suit different food types, giving you storage flexibility for everyday needs as well as special occasions. Choose from Freezer, Soft Freeze, Chill and Fridge modes.

CHILL MODE

Keep ready-to-eat food fresher for longer with Chill Mode (-1.5 to 0°C). Chill Mode is a perfect solution for everyday life. It keeps meats, poultry and fish as cool as possible, retaining vital freshness and helps food retain its condition for around three times longer than Fridge Mode. It's also great for entertaining. Set a zone to Chill Mode to quickly bring beverages down to serving temperature.

SOFT FREEZE MODE

Soft freeze (-10 to -6°C) is perfect for food that will be consumed soon – but not right away. Set a zone to Soft Freeze Mode and enjoy optimal food storage and everyday convenience. Soft frozen food requires only a quick thaw rather than a full defrost. It is the ideal setting for easy portioning, such as cut loaves of bread, soups and even cured meats, or for serving straight from the compartment.

Activesmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It is technology which understands how you use your fridge and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

BEAUTY OF CHOICE

With the choice of stylish stainless steel or elegant black, you can choose the finish that complements your kitchen design best.

Design quality

Our refrigerators are designed and built using robust, quality materials, with stainless steel exteriors and solid glass for the interior shelving.

Ice Maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off when you need to free up freezer space, or during busy times, use the boost feature to increase ice production.

SPECIFICATIONS

Capacity	
Total gross capacity	605 L
Volume	538 L
Volume freezer	98 L
Volume refrigerator	341 L
Volume variable temperature compartment	99 L

Consumption	
Energy rating	4 star
Energy usage	396 kWh/year
In-use energy carbon emissions estimate	258.0kgCO2e/year

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
