- Spacious bottom freezer with full extension drawer gives easy access to frozen goods.
- Choose which side you'd like your door hinge on to suit your kitchen layout

DIMENSIONS

Height	1715 mm
Width	635 mm
Depth	695 mm

FEATURES & BENEFITS

Activesmart™ Foodcare

Every time you open your refrigerator, the temperature around your food changes. ActiveSmart™ foodcare adjusts airflow to create a stable temperature, helping your food stay fresher for longer.

EASY CLEANING

No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

Design Quality

Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving as well as in our wine cabinet doors.

Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses only the energy it needs without compromising on food care.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a perfect microclimate for each, which helps keep them fresher for longer.

SPECIFICATIONS

Accessories (sold separately)

Joiner Kit	819264
------------	--------

Capacity

Total gross capacity	414 L
Volume freezer	111 L
Volume refrigerator	269 L

Consumption

Energy consumption	471kWh/year
--------------------	-------------

Energy rating	2 ticks
In-use energy carbon emissions estimate	180.5kgCO2e/year

Features

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
