120cm Series 7 Box Chimney Wall Rangehood

Series 7 | Contemporary
Stainless Steel and Glass

The wall chimney rangehood has a contemporary styling, extracting steam, grease and cooking odours quietly and efficiently.

- With three fan speeds plus boost, select the perfect extraction rate for your cooking

- Powerful maximum air movement of 780m³/hr

- Energy-efficient LED lighting to illuminate your cooking surface

DIMENSIONS

Height	595-1035 mm
Width	1198 mm
Depth	500 mm

FEATURES & BENEFITS

Effective And Quiet

This rangehood features three fan speeds, plus a boost function, providing powerful extraction to quickly remove odours and steam. The timer keeps the rangehood working for up to 15 minutes before automatically turning off.

Simple To Use

This Fisher & Paykel rangehood features a sleek and easy to use touch-control panel. Low energy, dimmable LED lights provide superb illumination over the entire cooking surface.

Easy Cleaning

Designed for simple removal, the filters are easy to clean and dishwasher safe. The stainless steel mesh cover just needs a quick wipe to keep clean. An alert reminds you when to clean the filter to ensure you get the best performance out of your rangehood.

Seamless Integration

This wall chimney rangehood features sleek black glass and stainless steel styling that will complement any contemporary kitchen, and is designed to match the rest of Fisher & Paykel's kitchen appliance family.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
