

11kg Series 7 Front Loader Washer, Steam Care

Series 7 | Front Load

White

This Fisher & Paykel 11kg washing machine has 13 different fabric care cycles to cater for every type of load.

- Refresh, de-wrinkle and deodorise clothes with no need for a full wash cycle, using Steam Refresh
- Save time or maximise energy efficiency and reduce water usage with the Optimise Wash option
- Quickly and easily add or remove any item from the machine during the wash cycle with the Add a Garment function

- Extra large 11kg capacity within the standard 600mm space
- Delivers a quiet, reliable wash with its unique cushion drum design powered by SmartDrive™ technology

DIMENSIONS

Height	850 mm
Width	600 mm
Depth	675 mm

FEATURES & BENEFITS

Fabric Care Cycles

13 fabric care cycles including Steam Refresh, Quick 30, Bulky and Easy Iron. The specially designed cushioned drum provides a gentle, effective washing action protecting clothes while delivering an optimal wash performance.

Steam Refresh Cycle

Worn something once or had it stored away? Steam Refresh will deodorise, de-wrinkle and make it ready to wear again with no need for a full wash cycle.

Customise Your Wash

Select Speed to shorten wash and rinse times or choose Eco to wash more sustainably with lower temperatures and less water usage.

A Smarter, Quieter Motor

SmartDrive™ Technology is a gentle, quiet, and efficient combination of smart electronics and a direct drive motor that senses the load to deliver better fabric care.

Approved By Woolmark™

Our Wool cycle is an extra gentle warm wash, perfect for machine washable woollen items. It has a Woolmark™ guarantee so you can wash with confidence, saving time on hand washing.

Add A Garment

The Add a Garment feature allows you to quickly add or remove any size garment mid cycle. Simply press the Add a Garment button and the door will unlock. If the drum water is too high, just enough will be drained out before the door is unlocked.

Wash Larger Loads

The large 11kg drum can wash both small and large loads as well as bulky items like a king size feather duvet. This saves time as a full week's laundry can be done in just a few loads. Accurate water level sensing makes it highly efficient at washing different load sizes.

Designed To Match

The complete package for a beautiful laundry. The 11kg washing machine is designed to match our 8kg Heat Pump Condensing Dryer or 8kg Condensing Dryer. With outstanding aesthetics and complimentary wash and dry cycles, they become the perfect pair to deliver complete fabric care.

[↓](#) Service & Warranty

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
