# 60cm Series 9 Integrated Insert Wall Rangehood

Series 9 | Integrated

Stainless Steel

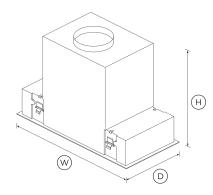

With edge-to-edge extraction, this efficient, stylish rangehood is perfectly hidden away in your cabinetry.

- With five fan speeds, select the perfect extraction rate for your cooking
- · With dimmable LED strip lighting
- 700m³/hr maximum airflow
- · Dishwasher safe filters that are easy to remove and clean

## DIMENSIONS

Height	407 mm
Width	580 mm
Depth	280 mm

### **FEATURES & BENEFITS**

# **Edge To Edge Extraction**

Filters effectively reach edge to edge, which maximises the extraction area.

# **Full Surface Lighting**

The even lighting provides full coverage of the cooktop, illuminating food in its true colour, with no hot or dark spots and no glare or shadows. The dimmable lights have fade in and fade out features.

### Easy To Use

This easy to use rangehood operates with fingertip control of LED-illuminated soft touch buttons. Selected models also come with a remote control.

# **Energy Efficiency**

Powered by a brushless DC motor, the Integrated Rangehood operates more efficiently, more reliably and with less noise than units with AC motors.

# **Effortless Cleaning**

The stainless steel filters are easy to remove and are dishwasher safe. A self-contained grease tray within the filters makes them very easy to clean.

# Simple Installation

The simple installation process is compatible with most precut cabinetry. The adjustable mounting system can be installed with 16mm to 38mm cabinetry board.

### **SPECIFICATIONS**

# Accessories (included)

Remote control 50137 HPBRF1\*

#### Fan ratings

Maximum air movement 700 m³/hr
Speed 3 sound rating 54 dBA

#### Installation and cleaning

Air outlet size 150 mm

Dishwasher safe filters 2

Ducted Vertical only

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
