

# 60cm Series 7 4 Burner Gas Hob, Natural Gas

Series 7 | Contemporary

Stainless Steel | Natural Gas

All the essentials in a compact hob, including a wok burner for high heat cooking.

- Four burners including a wok burner
- A flame-failure safety device; if the flame goes out, the gas turns off
- Flat cast iron trivets so pots and pans can easily slide across elements

## DIMENSIONS

Height	64 mm
Width	600 mm
Depth	530 mm

## FEATURES & BENEFITS

### Precise Control

The consistent flame and heat distribution of the burners, including the wok burner, combined with highly responsive dials offer precise heat control. Perfect a slow simmer for sauces or an intense heat for searing steaks.

### Easy Handling

With flat cast iron grates, pots and pans can easily be slid across elements, coming in handy in busy cooking environments.

### Safe And Sound

The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

### Complementary Design

The brushed stainless steel and polished metal trim has been designed for durability but also provides a modern, stylish finish, matching the Fisher & Paykel family of kitchen appliances.

### Easy Cleaning

The stainless steel component is easily accessible and quick to clean. Cast iron trivets provide a durable and stable cooking platform. Their rubber feet prevent them from scratching the hob.

### Handy Accessories

This hob comes with a small pan support and wok stand to complement different cooking styles.

## SPECIFICATIONS

### Accessories (included)

High power wok cooking	•
Wok stand	true

### Burner ratings

Auxiliary burner (natural gas)	1.2kW
Semi-rapid burner power	2.4kW
Wok burner power	3.56kW

### Burners

Number of burners	4

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
