# Series 7, Contemporary Single DishDrawer Dishwasher

Series 7 | Contemporary

White

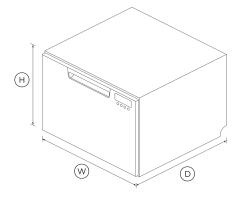

Designed to fit your full-sized dinner plates, this DishDrawer™ can be placed anywhere in your kitchen, for loading dishes with less bending.

- Six wash programs, as well as additional Quick wash, Sanitise and Extra Dry options
- Flexible racking allows you to customise internal shelves to suit your needs

## **DIMENSIONS**

Height	410 mm
Width	599 mm
Depth	573 mm

## **FEATURES & BENEFITS**

# Easy to use

DishDrawer™ Dishwashers are as easy to open and close as kitchen drawers and can be conveniently positioned at bench height for ease of loading and minimal bending. Flexible racking allows you to make adjustments to fit in a variety of dishes.

Quick, Sanitise and Extra Dry options

The Quick wash modifier delivers a faster wash while maintaining performance. The Sanitise option provides extra protection, killing 99.9% of bacteria in the final rinse. The Extra Dry setting is perfect for plastic dishes.

# Quiet performer

Running at a very low decibel rating, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

# Seamless integration

DishDrawer™ Dishwashers can be installed in any kitchen space and are designed to match the Fisher & Paykel family of kitchen appliances, with matching handles, premium styling and quality materials.

# **SPECIFICATIONS**

#### Accessories (included)

QUICK REFERENCE GUIDE > DD60SCW9

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
