90cm Series 7 Tilt Chimney Wall Cooker Hood

Series 7 | Contemporary

Stainless Steel and Glass

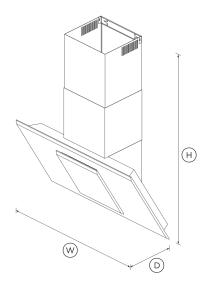

With a tilted black glass hood, this ventilation option saves on space while adding contemporary design to your kitchen.

- With four fan speeds, plus boost function, select the perfect extraction rate for your cooking
- Powerful maximum air movement 617m³/hr
- · Dishwasher safe filters that are easy to remove and clean

DIMENSIONS

Height 800-1140 mm
Width 900 mm
Depth 380 mm

FEATURES & BENEFITS

Effective And Quiet

This cooker hood features four fan speeds, plus a boost function, providing powerful extraction to quickly remove odours and steam. As odours can linger in the kitchen well after cooking is finished, the timer keeps the rangehood working for up to 15 minutes before automatically turning off.

Simple To Use

This Fisher & Paykel tilt cooker hood features a sleek and easy to use touch-control panel. Low energy, dimmable LED lights provide superb illumination over the entire cooking surface.

Easy Cleaning

Designed for simple removal, the filters are easy to clean and dishwasher safe. The black glass finish just needs a quick wipe to keep clean. An alert reminds you when to clean the filter to ensure you get the best performance out of your cooker hood.

Designed To Match

This wall chimney tilt cooker hood features sleek black glass and stainless steel styling which will complement any contemporary kitchen and is designed to match the rest of Fisher & Paykel's kitchen appliance family.

SPECIFICATIONS

Accessories (included)

User Guide

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
