- Spacious bottom freezer with full extension drawer gives easy access to frozen goods

## DIMENSIONS

Height	1790 mm
Width	900 mm
Depth	695 mm

## FEATURES & BENEFITS

### CONSIDERED DESIGN

Designed to match our Contemporary style black glass family of products, this refrigerator freezer has a tactile black glass finish that pairs perfectly with recessed handles.

### Activesmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It is technology which understands how you use your fridge and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

### Clever Energy

Your refrigerator adapts to daily use by cooling and defrosting only when necessary. This means your refrigerator uses the energy it needs without compromising on food care.

### Design Quality

Our refrigerators are designed and built using robust, quality materials, with a solid glass used for both the fridge exterior and interior shelving.

### Ice maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off when you need to free up freezer space, or during busy times, use the boost feature to increase ice production.

### Ultra slim water dispenser

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your refrigerator.

### Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

## SPECIFICATIONS

### Accessories (sold separately)

Water filter replacement	847200 - FWC3
--------------------------	---------------

### Capacity

Total gross capacity	614 L
Volume	569 L
Volume freezer	152 L
Volume refrigerator	417 L

### Consumption

Energy rating	3.5 star
Energy usage	453kWh/year
In-use energy carbon emissions estimate	295.1kgCO2e/year

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
