

- This storage plinth can only be installed with a compatible Fisher & Paykel appliance.
To ensure stability, the plinth must be fitted correctly with the appliance.
- Ensure the drawer is closed while the appliance is running.
- Do not stand on the drawer, slam shut, or overload. Maximum capacity: 15kg.
- If you notice excessive vibrating while the appliance is running, ensure the products are level and the plinth is sitting on its feet.
- For installation instructions and compatible appliance models, go to fisherpaykel.com/ specify and search by product name or model. Refer to the Pairing Guide for compatible appliance models.

Product overview

Features

① Drawer	Push the centre of the drawer to open or close.
② Adjustable divider	Adjust the divider as needed to store items.
③ Drawer latch	Engage the latch to prevent unintended access when storing detergent or cleaning products.
