

24" Series 7 Integrated Insert Range Hood

Series 7 | Integrated

Stainless Steel and Glass

With edge-to-edge extraction, this range hood is perfectly hidden away in your cabinetry.

- With three fan speeds plus a boost function, select the perfect extraction rate for your cooking
- Perimeter extraction for efficient removal of steam and odors
- Powerful maximum air movement of 400CFM
- Wi-Fi enabled for notifications through the SmartHQ™ app

DIMENSIONS

Height	12 7/16 "
Width	20 7/8 "
Depth	11 "

FEATURES & BENEFITS

Achieve The Invisible

This high quality integrated range hood seamlessly blends behind cabinetry in a variety of kitchen layouts. Beautiful in its simplicity, this product has brushed finished surfaces with no visible screws.

Simple Controls

The intuitive control panel responds to the touch of your finger. LED strip lighting illuminates the entire cooktop surface for the perfect sear or ideal reduction. Range hood settings, including temperature and fan speed, can be controlled via the SmartHQ™ app, with additional voice control options for fan speeds and lighting.

Easy Cleaning

Designed for simple removal, the filters are easy to clean and dishwasher safe, while the glass and stainless steel finish is easily wiped clean. The SmartHQ™ app will notify you when to clean the filter to ensure you get the best performance out of your rangehood.

Quality Materials

This rangehood comes in a sleek black glass finish with a real stainless steel frame.

SPECIFICATIONS

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
