

# 30cm Series 5 2 Element Electric Cooktop

Series 5 | Contemporary

Black Glass

Two heating elements for a simple but stylish cooktop that saves on space and functions as a benchtop when not in use.

- Two cooking zones including a dual element
- Easy to clean flat ceramic surface
- With simple dial controls

## DIMENSIONS

Height	63 mm
Width	300 mm
Depth	530 mm

## FEATURES & BENEFITS

### Even Heating

Powerful ribbon elements heat up quickly and create an even distribution of heat for perfect results – whether you're searing meat or simmering sauces.

### Easy To Clean

With its strong ceramic surface, your electric cooktop is designed to look shiny and new for years to come. It just needs a quick wipe after cooking – saving you time in the kitchen.

### Safe And Sound

Once your cooktop is turned off, indicator lights glow until the surface is safe to touch.

### Sized To Suit

Fisher & Paykel electric cooktops come in a range of sizes to suit every kind of kitchen. Because they're perfectly flat and cool down fast, they can be used as an extension of your preparation surface when they're switched off.

### Simple To Use

Classic dial controls make this cooktop a breeze to use. No complicated buttons or switches – just turn your dial to the desired temperature and you're ready to cook.

### Complementary Design

The electric ceramic series is designed to match the rest of Fisher & Paykel's kitchen appliance family, with a stylish frameless design, sleek ceramic glass surface and intuitive controls.

## SPECIFICATIONS

### Cleaning

- Flat easy clean glass surface

### Controls

- Laser etched graphics
- On indicator
- Satin chrome control dials

### Performance

- Dual colour display
- Dual element

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
