Series 11, Integrated Tall Double DishDrawer Dishwasher

Series 11 | Integrated

Panel Ready

Integrates seamlessly into kitchen cabinetry. Each drawer features a premium stainless steel interior and operates independently, for flexible washing.*

- Customise with your own front panel and handle to match your kitchen cabinetry
- Eight wash cycles from Heavy to Light, including Auto, 60min and Glassware

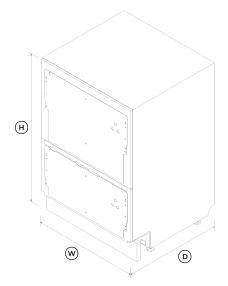

- Fits plates up to 310mm, with flexible racking to accommodate other large cookware
- Premium stainless steel interior, and soft-close drawers with knock to pause function
- With Wi-Fi capability and a SmartHQ[™] app for remote control and notifications

DIMENSIONS

Height 865 - 925 mm

Width 599 mm

Depth 553 mm

FEATURES & BENEFITS

Seamless Integration

Install your DishDrawer™ Dishwasher into an existing kitchen space or integrate into kitchen cabinetry. The touch-sensitive control panel is located inside this Integrated model, leaving an uninterrupted exterior that blends seamlessly with surrounding cabinetry.

Ease Of Use

DishDrawer™ Dishwashers are beautiful to use with soft-close drawers. The tall top drawer fits your larger plates and dishes up to 310mm, while the bottom drawer is ideal for small washes. Flexible racking includes height-adjustable cup racks and wine glass supports.

True Half Load

Both drawers fit a true half load. Each drawer operates independently, so you can wash one load while stacking the other drawer, or wash simultaneously on separate cycles.

Flexible Wash Options

Eight wash programs including Auto, 60min and Glassware, while modifiers such as Sanitise, Dry+ and Quiet provide added wash flexibility. The Quiet wash modifier reduces the noise on some cycles while maintaining performance – perfect for late night washing.

Design Quality

Every detail has been carefully crafted using quality materials, from the easy-to-clean stainless steel interior to the spray arm sensor that detects jams for increased wash confidence.

Knock To Pause

For ease-of-use, these DishDrawer™ Dishwashers have a knock to pause function. A knock on the front panel will pause the dishwasher, which can be restarted by using the start button.

Efficient Performance

With 4 star energy rating and 5.5 star (WELS) water rating, this DishDrawer™ Dishwasher uses the energy it needs without compromising on wash performance.

SPECIFICATIONS		Consumption		Performance	
		Energy rating	4 star	Noise on standard cycle top drawer	43 dBA
Accessories (included)		Energy usage	115kWh/year per drawer

Standards Data and Wash Program Data DishDrawer™ Dishwasher

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
