

# 8kg Series 5 Top Loader Washer, UV Sanitise

Series 5 | Top load

White

This top loader is easy-to-load and has a specially designed pillow drum for gentle wash action to help you take better care of your clothes.

- Specialised UV Sanitise wash modifier to kill more than 99.99% of bacteria\*
- Auto load sensing uses just the right amount of water for best wash results
- Impressive 4.5 star energy and 4 star water rating

- Pillow drum design is gentle on clothes while a low profile agitator helps minimise tangling.
- Eco wash option reduces energy and water consumption for a more optimised wash

## DIMENSIONS

Height	1020 mm
Width	580 mm
Depth	600 mm

## FEATURES & BENEFITS

### Auto Load Sensing

Intelligent sensors determine load size and soil level before using just the right amount of water for best wash results and optimal fabric care.

### Star-Rated Energy And Water

This top loader washing machine boasts a 4.5-star energy rating and a 4-star water rating.

### Efficient Water And Energy Usage

The Eco wash option uses less energy and water during a wash cycle making this top loader a great eco-friendly option. A bionic lint filter helps prevent lint, fibres and other debris going back into grey water, for more efficient cleaning and rinse cycles.

### Easy To Use

This machine has a cycle to suit every type of load including Bulky, Extra Care and Wool. Select a cycle with the easy to use SmartTouch™ control dial.

### Soft-Close Lid

The tough glass lid delivers quality and durability. Its soft close mechanism makes it family safe, avoids slamming and allows for hands-free operation.

### Easy Installation

Self-levelling feet make installation easy and ensure the washer stays level, to reduce vibration and keep noise to a minimum.

## SPECIFICATIONS

### Capacity

Capacity **8 kg**

### Consumption

Energy rating	<b>4.5 star</b>
Energy usage	<b>219kWh/year</b>
In-use energy carbon emissions estimate	<b>142.7kgCO2e/year</b>
Water consumption per cycle	<b>82L</b>
Water rating	<b>4 star (WELS)</b>

### Controls

Control type **Capacitive touch display**

### Features

- Advanced out of balance detection
- Agitator **Low profile**
- Auto out of balance correction
- Automatic water level

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. © Fisher & Paykel Appliances Ltd 2020

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
