- ActiveSmart<sup>™</sup> technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Spacious bottom freezer with easy-slide internal drawers to separate storage
- Door water dispenser and internal ice maker

**DIMENSIONS** 

Height 1715 mm
Width 680 mm
Depth 695 mm

### **FEATURES & BENEFITS**

#### **Design Quality**

Our refrigerators are designed and built using quality materials. We use real stainless steel for the finish, and solid glass for shelving.

### **Clever Energy**

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

### **Easy Cleaning**

No more permanent dirty marks with our EZKleen feature for stainless steel fridges. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

#### Ice Maker

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

# Water On Tap

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water, and doesn't take up any storage space in your fridge.

#### **Humidity Control**

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

# **SPECIFICATIONS**

#### Accessories (sold separately)

Water filter replacement 847200 - FWC3

#### Capacity

Total gross capacity	442 L
Volume	413 L
Volume freezer	119 L
Volume refrigerator	294 L

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
