# 24" Series 7 Contemporary Self-Cleaning Oven, 9 Function

Series 7 | Contemporary

Stainless Steel

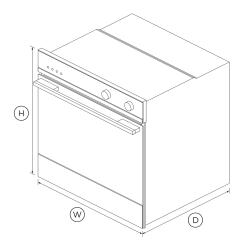

With generous capacity and beautiful contemporary styling, this built-in oven will complement your kitchen design perfectly.

- Three cubic feet total capacity, with nine oven functions including Aero™ Pastry and Roast
- Self-cleaning function breaks down food residue for an easy clean
- Moisture control and even heat distribution thanks to ActiveVent™ and AeroTech technology

 Optional non-tip, full-extension sliding shelves for safe removal of hot dishes

## **DIMENSIONS**

Height	23 9/16 "
Width	23 1/2 "
Depth	22 1/4 "

## **FEATURES & BENEFITS**

## **Generous Capacity**

With a generous sized internal cavity, you can create several dishes at once using multiple shelves.

#### Perfect Results

Our built-in ovens feature ActiveVent technology for optimized moisture levels, and AeroTech™ for even heat distribution. Get perfect results even when you're using multiple shelves.

## **Multi-Function Flexibility**

Nine functions including Aero™ Pastry, Roast and Aero™Bake mean no matter what you're cooking, you've got the right heat to match.

#### Seamless Fit

Designed to fit seamlessly in your kitchen, this built-in oven fits flush with cabinetry to minimize gaps and add to a cohesive aesthetic.

#### Cleaning Is Simple

The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

## The Beauty Of Choice

With the choice of stylish stainless steel or elegant black, you can choose the finish that complements your kitchen design best.

#### Safe And Sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

### **SPECIFICATIONS**

User Guide

### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
