

# Built-in Coffee Maker, 24"

Series 9 | Contemporary

Stainless Steel

Indulge in barista-style coffee at home. From Latte to Macchiato, you can enjoy perfectly crafted coffee just the way you prefer.

- With 13 options from Americano to Macchiato, for barista-standard coffee at home
- Your favorite coffee can be memorized to start your desired time, for automatic brewing
- With self-cleaning function for an effortless clean
- Part of our suite of companion products, designed to match for flexible configurations

## DIMENSIONS

Height	18 "
Width	23 7/16 "
Depth	18 7/8 "

## FEATURES & BENEFITS

### Coffee Choice

Our coffee maker has 13 different options to suit individual taste and selection – from Flat White to Latte to Macchiato.

### Self-Cleaning

The coffee maker has a self-cleaning function, and comes with a removable drip tray and a waste container for used coffee grounds.

### Complementary Design

Designed to match our Contemporary style Companion suite, this Coffee Maker has a stylish black finish with a polished metal trim.

### Coffee Your Way

With a programmable timer your favorite coffee can be memorized and set to start at the same time each day. The intuitive touch display includes refill, cleaning and maintenance data, while twin LED lights illuminate your beverages creating a welcoming glow on those dark mornings.

### Sized To Suit

Perfect for the compact kitchen, this Built-in Coffee Maker can be placed virtually anywhere. All our companion products can be installed at a convenient height to suit your kitchen design and preference.

### Barista-Style Coffee

The conical burr grinder delivers a consistent grind for the perfect coffee. Set it to suit your preference.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
