

# 494L Series 5 Refrigerator Freezer, Ice & Water

Series 5 | Contemporary

Stainless Steel | Right Hinge

With ample storage and a stylish stainless steel finish, for a timeless look.

- ActiveSmart™ technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Spacious bottom freezer with easy-slide internal drawers to separate storage
- Door water dispenser and internal ice maker

## DIMENSIONS

Height	1715 mm
Width	790 mm
Depth	695 mm

## FEATURES & BENEFITS

### WATER DISPENSER

The slimline dispenser makes it easy to fill almost any sized jug or vessel with cool filtered water and doesn't take up any storage space in your fridge.

### Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

### Clever Energy

Your fridge adapts to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

### Design Quality

Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving.

### Easy cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

### ICE MAKER

Fresh ice is always available for you in a dedicated freezer bin. Simply turn it off to free up freezer space or during busy times, you can boost ice production by up to 30%.

## SPECIFICATIONS

### Capacity

Total gross capacity	519 L
Volume	494 L
Volume freezer	146 L
Volume refrigerator	348 L

### Consumption

Energy rating	3.5 star
Energy usage	414kWh/year
In-use energy carbon emissions estimate	269.7kgCO2e/year

**Features**

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
