9kg Series 7 Heat Pump Dryer

Series 7 | Heat pump

White

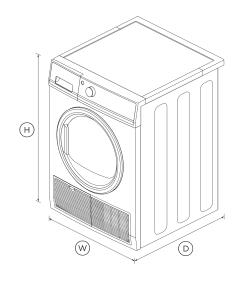

Better energy efficiency and fabric care with heat pump condensing technology, which dries your clothes at a lower temperature.

- 13 dry cycles, including Delicate, Wool and Easy Iron
- Auto-sensing detects moisture levels to prevent under or over drying
- No need for external venting, allowing your dryer to be placed anywhere in your home

DIMENSIONS

Height	850 mm
Width	600 mm
Depth	670 mm

FEATURES & BENEFITS

13 Fabric Care Cycles

Select the right cycle for any fabric type, from the most precious and delicate to those heavier essential items.

TOO PRECIOUS TO TUMBLE?

The drying rack is designed for items that can't be tumble dried. It fits easily into the dryer and delivers the perfect result for those precious delicates, shoes and toys.

Sports Cycle

The low heat Sports cycle is perfect for whatever the game throws at you, and ensures that your gear is ready for the next one.

Bulky Cycle

Longer periods of cooling in between heat evenly dries large items like doonas and ski jackets.

DESIGNED TO MATCH

The Heat Pump Condensing Dryer is designed to match beautifully with any Fisher & Paykel front loader washing machine, creating the perfect pair to deliver complete fabric care.

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
