QUICK REFERENCE GUIDE > RF610ADX5

569L Series 7 French Door Refrigerator Freezer

Series 7 | Contemporary

Stainless Steel | French hinge

Our largest capacity French Door model has intuitive, flexible storage space, with a stylish stainless steel finish.

- ActiveSmart[™] technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Spacious bottom freezer with full extension drawer gives easy access to frozen goods.

DIMENSIONS

Height 1790 mm
Width 900 mm
Depth 695 mm

FEATURES & BENEFITS

ACTIVESMART™ FOODCARE

ActiveSmart™ Foodcare learns how you live. It's the technology that understands how you use your fridge and adjusts the temperature, airflow and humidity inside to help keep food fresher for longer.

Humidity Control

Your fruit and veges need different environments. The humidity control slides in each storage bin create a microclimate that helps keep food fresher for longer.

Easy Cleaning

Spill-safe secure glass shelves easily capture any drips or leaks and prevent them from falling on items below.

Clever Energy

Your fridge adapts to daily use by cooling and defrosting only when needed. This means your fridge uses the energy it needs without compromising on food care.

SIMPLE STORAGE

This fridge is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Our flexible shelving also gives you more storage options.

SPECIFICATIONS

Capacity Total gross capacity Volume Volume freezer Volume refrigerator 417 L

Consumption

Energy rating	3.5 star
Energy usage	448kWh/year
In-use energy carbon emissions estimate	60.7kgCO2e/year

Features

Adjustable glass shelves	2
Adjustable half width door shelves	4
Covered door shelves	2

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
