- Designed to match the Contemporary style family of appliances

## DIMENSIONS

|        |        |
|--------|--------|
| Height | 598 mm |
| Width  | 597 mm |
| Depth  | 565 mm |

## FEATURES & BENEFITS

### Multi-Function Flexibility

Each function has been perfected to ensure that no matter what you're cooking, you've got the right heat to match. This built-in oven has five functions including Bake, Fan Bake and Pizza Bake, allowing you to use a variety of cooking styles.

### Generous Capacity

With a generous 85L total capacity, you can create several perfectly cooked dishes at once using multiple shelves.

### Even Heating

Ideal for multi-shelf cooking, this built-in oven features AeroTech – a technology that circulates heat evenly.

### Easy To Clean

Cleaning this oven is quick and easy thanks to the optional catalytic liners which absorb oil and fat splashes during cooking.

### Design Freedom

Designed to fit seamlessly into your kitchen, this built-in oven features premium materials and detailing to support a cohesive, considered kitchen design.

### Safe And Sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

**Where applicable:**

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
