4.0 cu ft Series 5 Condensing Dryer, Auto-Sensing, Rack Dry

Series 5 | Condensing

White

With no need to vent moisture outside, you can incorporate the condensing dryer into any laundry design to create a beautiful laundry space anywhere in your home.

- 13 dry cycles including Sheets, Delicate and Sanitize to cater for every type of load

- Auto-sensing detects moisture levels to prevent under or over-drying

- Provides an internal drying rack for items too precious to tumble

- Interior drum light for increased visibility while unloading

DIMENSIONS

Height	33 1/4 - 33 5/8"
Width	23 7/16"
Depth	25 3/8"

FEATURES & BENEFITS

Auto Sensing
Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last longer and reduces energy consumption.

Cares For Clothes
13 drying cycles including Sheets, Delicate and Sanitize for every type of garment. Select the cycle that best suits your load to dry your clothes with confidence.

No Venting Required
Condensation is collected so there is no need for external venting, allowing your dryer to be placed almost anywhere in your home.

Too Precious To Tumble
The drying rack is designed for items that can't be tumble dried. It fits easily into the dryer and delivers the perfect result for those special delicates, shoes and toys.

Drum Light
A handy interior light turns on when you open the dryer door providing improved visibility inside the drum.

Designed To Match
The complete package for a beautiful laundry space. This dryer is designed to match with our Front Loader washing machine. With outstanding aesthetics and complementary wash and dry cycles, they become the perfect pair to deliver complete fabric care.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
