QUICK REFERENCE GUIDE > DE4560M2

# Vented Dryer, 4.5kg

Series 3 | Vented

White

Dry your clothes efficiently, without overdrying, in this vented dryer that's perfect for smaller households.

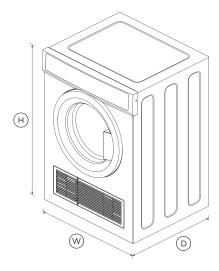

- Autosensing detects moisture level to prevent under or over drying
- Four fabric care cycles including Delicate and Everyday
- Easy access and loading with a door that opens 180°

# **DIMENSIONS**

Height 830 mm

Width 600 mm

Depth 485 mm

## **FEATURES & BENEFITS**

## **Auto-Sensing Technology**

Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last for longer and reduces energy consumption.

#### Easy Loading

The robust dryer door features die cast metal hinges that open to a full 180° for easy access and loading.

# **SPECIFICATIONS**

#### Capacity

Total capacity 4.5 kg

#### Consumption

Energy rating 2 star

Energy usage 200kWh/year

In-use energy carbon emissions estimate 130.3kgCO2e/year

# **Dry Cycles**

Air Dry
Delicate
Everyday
Number of cycles
Time dry

#### **Features**

Child/Keylock
Clean door lint filter reminder
Easy access lint filter
End of cycle signal
Progress indicator
Time to go

Installation Guide & User Guide Vented Clothes Dryer

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
