- Part of our suite of companion products, designed to match aesthetically for flexible configurations.

DIMENSIONS

FEATURES & BENEFITS

Sized To Suit

A compact 60cm width means this Microwave Oven can be placed almost anywhere – all companion products can be installed at a convenient height to suit your kitchen design and preference.

Cooking Flexibility

Choice of nine cooking modes including Fan Forced and Grill, giving you the best of microwave and convection oven technology.

Easy To Use

An easy-to-use, intuitive display gives you all the information you need, including a cooking guide with nine pre-selected food cooking recipes.

Complementary Design

Finished in black reflective glass with a polished metal trim, this Microwave Oven is designed to match the other companion products and the rest of Fisher & Paykel's kitchen family.

Safe & Sound

The CoolTouch door is safe to touch from the outside, protecting your hands and the surrounding cabinetry.

Easy Cleaning

This Microwave Oven has formed side racks and a stainless steel interior that are easy to clean.

QUICK REFERENCE GUIDE > OM60NDB1

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
