Series 7, Contemporary Single DishDrawer Dishwasher

Series 7 | Contemporary

Stainless Steel

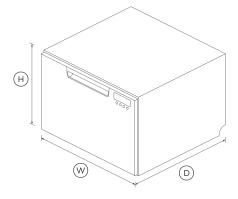

Designed to fit even full-sized dinner plates, this DishDrawer™ can be placed anywhere in your kitchen, for loading dishes with less bending.

- Six wash programs to suit any load, from Delicate to Heavy
- Flexible racking allows you to customise internal shelves to suit your needs

DIMENSIONS

Height 410 mm
Width 599 mm
Depth 573 mm

FEATURES & BENEFITS

Seamless Integration

DishDrawer™ Dishwashers integrate beautifully into any kitchen space. They're designed to match the Fisher & Paykel family of kitchen appliances, with matching handles, premium styling and quality materials.

Quiet performer

Running at a very low decibel rating, these DishDrawer™ Dishwashers do their job without making a fuss. The combination of intelligent technology and simple mechanics means greater reliability and excellent wash performance.

SPECIFICATIONS

Capacity and loading

Accommodates round plates up to	280mm
Fixed height, foldable cupracks	•
Fold down tines	•
Place settings	7
Place settings	7

Consumption

3.5 star	Energy rating
136kWh/year	Energy usage
nate 88.6kgCO2e/year	In-use energy carbon emissions estimate
6.9L	Water consumption (per wash cycle)
4.5 star (WELS)	Water rating

Controls

Electronic fault/Diagnostic indicator	•
End of cycle beeps	•
Energy saving delay start option of up to 12 hours	•
Keylock	•
Rinse aid indicator light	•
Smart appliance	•

Features

Fan assisted drying	•
Flood protection	•

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
