- ActiveSmart<sup>™</sup> technology helps keep food fresher for longer by constantly maintaining the ideal temperature.
- Ultra flat door conceals handles for streamlined look
- Bottom freezer

### DIMENSIONS

#### **FEATURES & BENEFITS**

#### Activesmart<sup>™</sup> Foodcare

ActiveSmart<sup>™</sup> Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

#### **Humidity Control**

Your fruit and veges need different environments. The humidity control slides in each storage bin create a perfect microclimate for each, which helps keep them fresher for longer.

#### Simple Storage

1720 mm

680 mm

695 mm

This refrigerator is designed to make it simple for you to store, access and remove food. Storage bins give you full access inside when they're pulled open and can be easily removed to clean. Adjustable shelving in the main cavity and door provide flexible storage options.

#### **Clever Energy**

Your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

#### Easy Cleaning

No more permanent dirty marks with our EZKleen feature for stainless steel refrigerators. Anti-fingerprint coating means you simply wipe clean any marks. Spill-safe secure glass shelves easily capture any drips or leaks.

#### **Design Quality**

Our refrigerators are designed and built using quality materials. We use real stainless steel, and solid glass for shelving.

#### SPECIFICATIONS

Product dimensions

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
