

# Series 5, Integrated Dishwasher

Series 5 | Integrated

Panel Ready

Offering a superior wash performance, this Dishwasher is panel ready and designed to be integrated into your kitchen for a seamless look.

- Customize with your own front panel and handle to match your kitchen cabinetry
- Seven wash programs to suit any load, from Delicate to Heavy
- Quick, Sanitize and Extra Dry provide extra wash options

- Flexible racking allows you to customise internal shelves to suit your needs

## DIMENSIONS

Height	32 5/16 - 36 1/2 "
Width	23 3/4 "
Depth	22 3/4 "

## FEATURES & BENEFITS

### Sized To Suit

Install this fully integrated dishwasher to tall (American size) or short (Euro/ADA size) counter heights, ensuring minimal gaps. Customize with a front panel to match kitchen cabinetry.

### A Quality Wash

This dishwasher offers seven wash programs including Auto, which automatically senses the optimal wash cycle for your dishes. The three stage filtration system delivers a superior clean, while the rinse aid indicator reminds you to top up for squeaky-clean dishes.

### Flexible Stacking

Designed to fit 14 place settings, the flexible, adjustable storage lets you stack even large items with ease - featuring a full width cutlery tray, height adjustable middle rack, cup holders and wine glass supports.

### Quick, Sanitize And Extra Dry Options

A Quick wash modifier results in a faster clean, while maintaining wash performance. The Sanitize option provides extra protection killing 99.9% of bacteria in the final rinse. The Extra Dry setting is perfect for plastic dishes.

### Quiet And Reliable

Running at a very low decibel rating, this dishwasher does its job without making a fuss. The combination of clever technology and simple mechanics means greater reliability and superior wash performance.

### Efficient Performance

This dishwasher is very efficient in its use of water and energy, while delivering a powerful wash that ensures optimal results.

#### Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
