|--------|------------|
| Height | 10 11/16 " |
| Width | 29 15/16 " |
| Depth | 22 1/2 " |

FEATURES & BENEFITS

Complementary Design

Designed to match the Fisher & Paykel family of appliances, the Vacuum Seal Drawer is the ideal companion product for our Minimal style ovens.

Three Levels Of Vacuum And Heat Sealing

Vacuum seal food to intensify flavors, infuse marinades and retain freshness. Effortlessly prepare food for sous vide cooking in optimal conditions.

Fresher Food For Longer

Vacuum sealing creates ideal conditions for longer food shelf life and storage. Lack of air exposure hinders the growth of bacteria and mold, preventing freezer burn and protecting your food.

Easy To Use

Handle-free, push-to-open with intuitive touch controls, our Vacuum Seal Drawer comes with a built-in accessory drawer for easy storage of vacuum bags and more.

Easy To Clean

The stainless steel interior can be wiped down with a damp cloth, while anti-fingerprint coating protects the stainless steel door panel from water, oil, dust, and fingerprints.

Reduce Food Waste

Our Vacuum Seal drawers extend the lifespan of food by removing excess air, which is the prime reason for spoilage. Vacuum sealing allows you to buy food in bulk and safely seal it for longer shelf life. Our food-grade, BPA-free bags are an excellent storage option — these can be re-used if sealed and cut appropriately.

SPECIFICATIONS

Accessories (included)

| | |
|--------------------------------------|---------------------------|
| External vacuuming accessory kit | Adapter, stopper and tube |
| Large size BPA-free vacuum seal bags | 50 bags, Part 793034 |

The product dimensions and specifications in this page apply to the specific product and model. Under our policy of continuous improvement, these dimensions and specifications may change at any time. You should therefore check with Fisher & Paykel's Customer Care Centre to ensure this page correctly describes the model currently available. © Fisher & Paykel Appliances Ltd 2020

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
