# 61cm Series 11 Integrated Refrigerator Freezer, Ice & Water

Series 11 | Integrated

Panel Ready | Left hinge

A slim profile, perfect for compact kitchens, or pair it with other Integrated models for generous chilled and frozen storage.\*

- · Customise with your own kitchen cabinetry or purchase our stainless steel door panel accessory
- Keep food fresher for longer by constantly maintaining the ideal temperature with ActiveSmart<sup>™</sup> technology

- Create the perfect climate for each type of food with Variable Temperature Zone: choice of four food modes, Pantry, Fridge, Soft Freeze or Freezer
- · Convenient access to fresh, chilled water and ice with internal water dispenser and ice maker

# **DIMENSIONS**

Height	2134 mm
Width	603 mm
Denth	610 mm

### **FEATURES & BENEFITS**

### Variable Temperature Zone

Create the perfect climate and store each type of food at optimal temperature and humidity with Variable Temperature Zone, reducing food waste due to spoiling. You have the choice of four food modes: Pantry, Fridge, Soft Freeze or Freezer. Use the Max cold feature for periods of high refrigerator or freezer use, or full grocery loads.

### Pantry Mode

Not everything benefits from cold storage. Pantry Mode (11 to 13°C) is the perfect climate to store foods that benefit from a cool, dark place, including bread, many types of fruit, bananas, avocados, tomatoes, nuts, grains and cereals.

### Soft Freeze Mode

Soft freeze is for food that requires a gentle freeze and quick thawing, perfect for items that will be consumed soon. It allows easy portioning and the ability to heat, cook or serve straight from the compartment, without waiting for it to thaw.

Internal Water Dispenser And Ice Maker

Both the water dispenser and ice maker are located inside this Integrated model, leaving an uninterrupted exterior that blends in seamlessly with surrounding cabinetry. The slimline water dispenser is flush fit in order to maximise internal storage space, with a temperature-controlled flow and an angled water delivery to capture any drips and spills.

#### Activesmart™ Foodcare

ActiveSmart™ Foodcare learns how you live. It's technology which understands how you use your refrigerator and adjusts temperature, airflow and humidity inside to help keep food fresher for longer.

# **Complementary Design**

Both the 61cm and 76.2cm Integrated Refrigerator Freezers can be installed separately or paired with a Column Refrigerator, Freezer or Wine Column. Customise with your own kitchen cabinetry and handles, or purchase our stainless steel door panel and handle options.

### Design Quality

The premium design and finish includes a steel interior lining as well as full extension metal shelf runners for easy access, robust glass shelving and quality hinges designed for daily use.

# Clever Energy

With a 3.5 star rating, your refrigerator adapts to daily use by cooling and defrosting only when needed. This means it uses the energy it needs without compromising on food care.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
