# 7kg Series 5 Vented Dryer, Auto Sensing, Full Reverse Tumbling

Series 5 | Vented

White

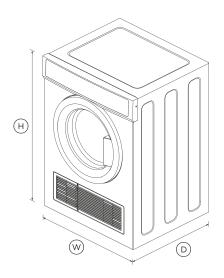

Dry your clothes efficiently without over drying, with multiple ways to install and vent.

- Auto-sensing detects moisture level to prevent under or over drying
- · Six fabric care cycles including Freshen, Heavy and Delicate
- Full reverse tumbling to help dry garments quicker and more evenly

• Drying rack for items that are too precious to tumble

# **DIMENSIONS**

Height 830 mm
Width 600 mm
Depth 575 mm

# **FEATURES & BENEFITS**

#### Auto-Sensing Technology

Auto-sensing prevents over-drying by sensing moisture levels inside the drum and shutting off automatically. This helps clothes last for longer and reduces energy consumption.

**Cares For Clothes** 

This dryer has a cycle to suit every type of load including Delicate, Heavy and Freshen. Select a cycle with the easy to use SmartTouch™ controls.

#### Simple Installation

Vent out either the front or the back of this dryer. A wall mounting kit is included and the control panel can be inverted easily.

### **Drying Rack**

This model comes with a drying rack, perfect for those items that are too precious to tumble.

# **Reverse Tumbling**

Reverse tumbling alternates direction to help garments move freely so they dry quicker and more evenly.

#### **Easy Loading**

The robust dryer door features die cast metal hinges that open to a full 180° for easy access and loading.

## **SPECIFICATIONS**

#### Capacity

Total capacity 7 kg

#### Consumption

Energy rating 2 star

Energy usage 315kWh/year

In-use energy carbon emissions estimate 205.2kgCO2e/
year

#### **Dry Cycles**

Choice of front or rear venting

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
