# Oven, 30", 11 Function, Selfcleaning

Series 9 | Contemporary

Stainless Steel

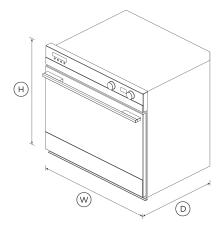

A highlight of the Fisher & Paykel range, this Series 9 oven ensures that every dish you create is cooked to perfection.

- 4.1 cu ft total capacity
- 11 oven functions including Aero<sup>™</sup> Pastry and Roast
- High-temperature self-cleaning function breaks down food residue for an easy clean
- · Non-tip, full-extension shelves for safe removal of hot dishes

#### **DIMENSIONS**

Height	27 5/16 "
Width	29 29/32 "
Depth	23 29/32 "

# **FEATURES & BENEFITS**

#### **Even Cooking**

Our built-in ovens feature  $AeroTech^{TM}$  - a technology that circulates heat evenly, ideal for multi-shelf cooking.

#### Self Cleaning

The self-clean function breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth. For best results, wipe down the inside of your oven door before you use the self-clean function.

#### Sized To Suit

Designed for multi-shelf cooking, this is one of the largest built-in ovens on the market providing 4.1 cu.ft of total capacity. The higher internal cavity allows you to fit a large casserole dish, the family roast and a pie for dessert.

#### Safe And Sound

The CoolTouch door with triple glazing and cooling system is safe to touch from the outside, protecting your hands and the surrounding cabinetry. Getting large dishes in and out of the oven is a breeze with full telescopic sliding shelves that stay perfectly steady – even when pulled all the way out.

#### Complementary Design

With their premium handle styling and stainless steel finish, our built-in ovens are designed to match the rest of Fisher & Paykel's kitchen appliance family.

# Cooking Flexibility

This built-in oven has 11 functions with pre-set temperatures, including Bake, Aero™ Bake and Fan Forced allowing you to use a variety of cooking styles.

# **SPECIFICATIONS**

# Accessories (included)

Wired temperature sensor

# Accessories (sold separately)

Handle kit Contemporary round, aluminium

Part number 81672

# Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

QUICK REFERENCE GUIDE > OB30SDEPX3\_N
Date: 14.06.2024 > 3

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
