# 60cm Series 7 Minimal Pyrolytic Oven, 9 Function

Series 7 | Minimal

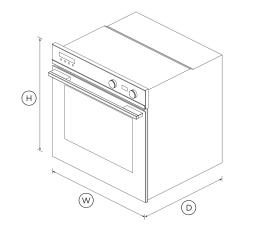

Black

With generous capacity and beautiful black Minimal styling, this built-in oven will complement your kitchen design perfectly.

- 85L total capacity, with 9 oven functions including Pizza Bake and Roast
- Moisture level control with ActiveVent<sup>™</sup> technology
- Pyrolytic self-cleaning function breaks down food residue for an easy clean
- · Non-tip, full-extension shelves for safe removal of hot dishes

# DIMENSIONS

Height	598 mm
Width	596 mm
Depth	565 mm

# **FEATURES & BENEFITS**

## Multi-Function Flexibility

Nine functions including Roast, Pizza Bake and Fan Grill mean no matter what you're cooking, you've got the right heat to match.

## **Beauty Of Choice**

With the choice of stylish stainless steel or elegant black, you can choose the finish that complements your kitchen design best.

#### **Generous Capacity**

With a generous-sized internal cavity, you can create several dishes at once using multiple shelves.

## Activevent Technology

With ActiveVent technology for optimised moisture levels and AeroTech<sup>™</sup> for even heat distribution, you'll get perfect results even when using multiple shelves.

## Simple Cleaning

Pyrolytic self-clean breaks down food residue at a very high temperature, leaving a light ash that's easily removed with a damp cloth.

## Safe And Sound

The CoolTouch door features triple glazing and a cooling system that ensures it's safe to touch from the outside – protecting both your hands and the surrounding cabinetry.

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
