24" Series 9 Integrated Beverage Center
Series 9 | Integrated

Panel Ready | Left hinge

Elevate your beverage storage with our Integrated Beverage Center. Ideal for wine, craft beer and more, it's perfect for any space within your home.

- Integrates into any setting within the home, from the bar to the master suite – the choices are endless

- Spacious 4.6 cu ft capacity, with full-depth wine shelf that can accommodate up to seven bottles

- Adjustable temperature control helps to keep drinks at the ideal temperature

- Designed to fit flush, with only 3/16" gaps and no visible hinges or grilles

DIMENSIONS

Height	33 13/16 "
Width	23 5/16 "
Depth	22 11/16 "

FEATURES & BENEFITS

Complete Design Freedom
This versatile under-counter beverage center brings increased cooling capability to any space, from kitchens to home bars, rumpus rooms to home cinemas. Compact and stylish, it carefully stores a selection of beverages, from cans to beer bottles or up to seven bottles of wine in a custom rack. Pair it perfectly with our under-counter wine cabinet to create an entertainer's dream set-up.

Customized Drink Storage
The beverage center is designed to store a selection of beverages, from cans to beer bottles, or bottles of wine in a custom rack. Full extension shelving makes it simple to see and select between a pale ale or pilsner, sauvignon blanc or chardonnay.

Flexible Storage
The beverage rack includes a slidable shelf divider that moves to securely hold bottles and cans to avoid tipping, or can be removed for large items. The custom wine rack carefully cradles and displays up to seven bottles of wine.

Precise Temperature Control
Set the temperature in each zone to between 34°F and 57°F depending on your needs, or use one of our five preset modes: Fridge, Beverage, Sparkling, White Wine or Pantry to store a range of drinks at the ideal temperature.

Seamless Fit
The beverage centre is designed to fit flush, with only 3/16" gaps between surrounding cabinetry, and no visible hinges or grilles.

Intuitive Control
Temperature control at your fingertips. Adjust the temperature of your beverage center through intuitive touch controls, or remotely using the SmartHQ™ app through to Wi-Fi connectivity.

Custom Door
A tempered glass door allows you to monitor your drinks selection and restock when necessary. Also available is a panel-ready model, which allows your beverage center to be hidden seamlessly behind your custom cabinetry.

Where applicable:

All appliances use energy, and energy usage typically generates carbon emissions. **Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate** indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
