QUICK REFERENCE GUIDE > CG301DX1

# Gas on Steel Cooktop, 30cm

Series 9 | Contemporary

Stainless Steel | Natural Gas

All the essentials in a large cooktop, including a wok burner for high heat cooking.

- · Single wok burner
- A flame-failure safety device; if a flame goes out, the gas turns off

# **DIMENSIONS**

Height 66 mm

Width 298 mm

Depth 530 mm

# **FEATURES & BENEFITS**

#### **Precise Control**

The consistent flame and heat distribution of the burners, including the wok burner, combined with highly responsive dials offer precise heat control. Perfect a slow simmer for sauces or an intense heat for searing steaks.

# **Easy Handling**

With flat cast-iron grates, pots and pans can easily be slid across elements, coming in handy in busy cooking environments.

#### Safe & Sound

The flame failure safety device automatically turns off the gas if the flame is accidentally extinguished.

#### Complementary Design

The brushed stainless steel and polished metal trim has been designed for durability but also provides a modern, stylish finish, matching the Fisher & Paykel family of kitchen appliances.

# **Easy Cleaning**

The stainless steel component is easily accessible and quick to clean. Cast iron trivets provide a durable and stable cooking platform, with rubber feet to prevent them from scratching the cooktop.

#### **Handy Accessories**

This cooktop comes with a small pan support and wok stand to complement different cooking styles.

# **SPECIFICATIONS**

## Accessories (included)

Small pan support

Wok stand

true

#### Burner ratings

Wok burner power 5.2kW

#### Burners

Number of burners

#### Cleaning

Easy clean cooktop design

Quick component removal

### Consumption

Energy rating	Grade 2
Heating efficiency	59%

#### Controls

Dual wok control

81797

All appliances use energy, and energy usage typically generates carbon emissions. Fisher & Paykel Appliances' In-use Energy Carbon Emissions Estimate indicates carbon emissions from a product's in-use energy. This is calculated either annually or per cycle, using the product's market-specific energy label energy consumption data multiplied by the carbon emissions factor for energy in your country or region.

Our In-use Energy Carbon Emissions Estimate is designed to assist customers in making informed purchasing decisions when comparing different Fisher & Paykel products. For example, a heat pump dryer typically has a lower In-use Energy Carbon Emissions Estimate than a vented dryer.
